Consultation/Technical Assistance

We provide evaluation and assessment of your agency's strategies, goals and outcomes. Using the latest research and best practices, we assist leaders in formulating strategic plans to reduce recidivism, improve the quality of services and make the best use of resources. CSI Training and Resource Center staff are adept at providing outcome analysis, workload analysis, systems analysis, treatment type and skill level analysis, and benchmarking and best practices analysis.

Quality Assurance

We provide consulting, tools and training in quality assurance for all agency services from intake through discharge. Our quality assurance coaches use strength-based strategies, designed to increase employee skill level and confidence. Quality assurance tools have been designed in coordination with international researchers and endorsed by leaders in evidence-based practices. Quality assurance procedures include audio/video tape review, individual and peer coaching sessions, and action plans to build on staff strengths.

Examples of Quality Assurance Tools:

- Assessment (LSI-r, YLSI, ASUS-r, CMC, etc.)
- Case Planning
- Case Management Sessions
- Motivational Enhancement Therapy Sessions
- Motivational Interviewing Techniques
- Group Interventions (CBT, gender specific, adult and youth)
